RE: Application of Bluegrass Wireless LLC for issuance of a Certificate of Public Convenience and Necessity to Construct a Cell Site (SPURLINGTON), Case No. 2005-00386

Dear Mr. Burford:

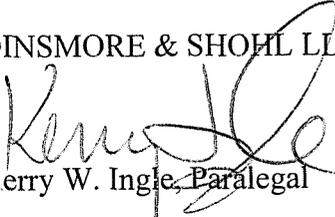

Enclosed for filing with the Kentucky Public Service Commission are an original and four (4) copies of the Federal Aviation Administration (FAA) approval and the determination from the Kentucky Airport Zoning Commission (KAZC) with respect to the above referenced cellular tower application.

If you have any questions with respect to this matter, please call me.

Thank you very much.

Very truly yours,

DINSMORE & SHOHL LLP

RE: Antenna Tower 199 feet at 37-25'20.06"N / 85-16'59.47"W.

This is to inform Lukas, Nace, Gutierrez & Sachs, Chartered that the proposed antenna tower 199 feet located at 37-25'20.06"N / 85-16'59.47"W is not in jurisdiction of the Commission. The tower is located outside the 20,000 foot jurisdiction line (Kentucky Administration Regulation 602 KAR 50:030) from Campbellsville Airport.

Enclosed is your application. Thank you for submitting the application.

If you have any questions regarding this matter, feel free to call me at (502) 564-9900 Ext. 3854.

Sincerely,

A handwritten signature in black ink, appearing to read "John Houlihan".

**** DETERMINATION OF NO HAZARD TO AIR NAVIGATION ****

The Federal Aviation Administration has completed an aeronautical study under the provisions of 49 U.S.C., Section 44718 and, if applicable, Title 14 of the Code of Federal Regulations, part 77, concerning:

Structure Type: Antenna Tower
Location: CAMPBELLSVILLE, KY
Latitude: 37-25-20.06 NAD 83
Longitude: 85-16-59.47
Heights: 199 feet above ground level (AGL)
1293 feet above mean sea level (AMSL)

This aeronautical study revealed that the structure does not exceed obstruction standards and would not be a hazard to air navigation provided the following condition(s), if any, is(are) met:

Based on this evaluation, marking and lighting are not necessary for aviation safety. However, if marking and/or lighting are accomplished on a voluntary basis, we recommend it be installed and maintained in accordance with FAA Advisory Circular 70/7460-1 K.

This determination is based, in part, on the foregoing description which includes specific coordinates, heights, frequency(ies) and power. Any changes in coordinates, heights, and frequencies or use of greater power will void this determination. Any future construction or alteration, including increase to heights, power, or the addition of other transmitters, requires separate notice to the FAA.

This determination does include temporary construction equipment such as cranes, derricks, etc., which may be used during actual construction of the structure. However, this equipment shall not exceed the overall heights as indicated above. Equipment which has a height greater than the studied structure requires separate notice to the FAA.

This determination concerns the effect of this structure on the safe and efficient use of navigable airspace by aircraft and does not relieve the sponsor of compliance responsibilities relating to any law, ordinance, or regulation of any Federal, State, or local government body.

A copy of this determination will be forwarded to the Federal Communications Commission if the structure is subject to their licensing authority.

If we can be of further assistance, please contact our office at (817)222-5538.
On any future correspondence concerning this matter, please refer to
Aeronautical Study Number 2005-ASO-6482-OE.
